

# CLAIM YOUR RAIN WATER

## it's yours to use

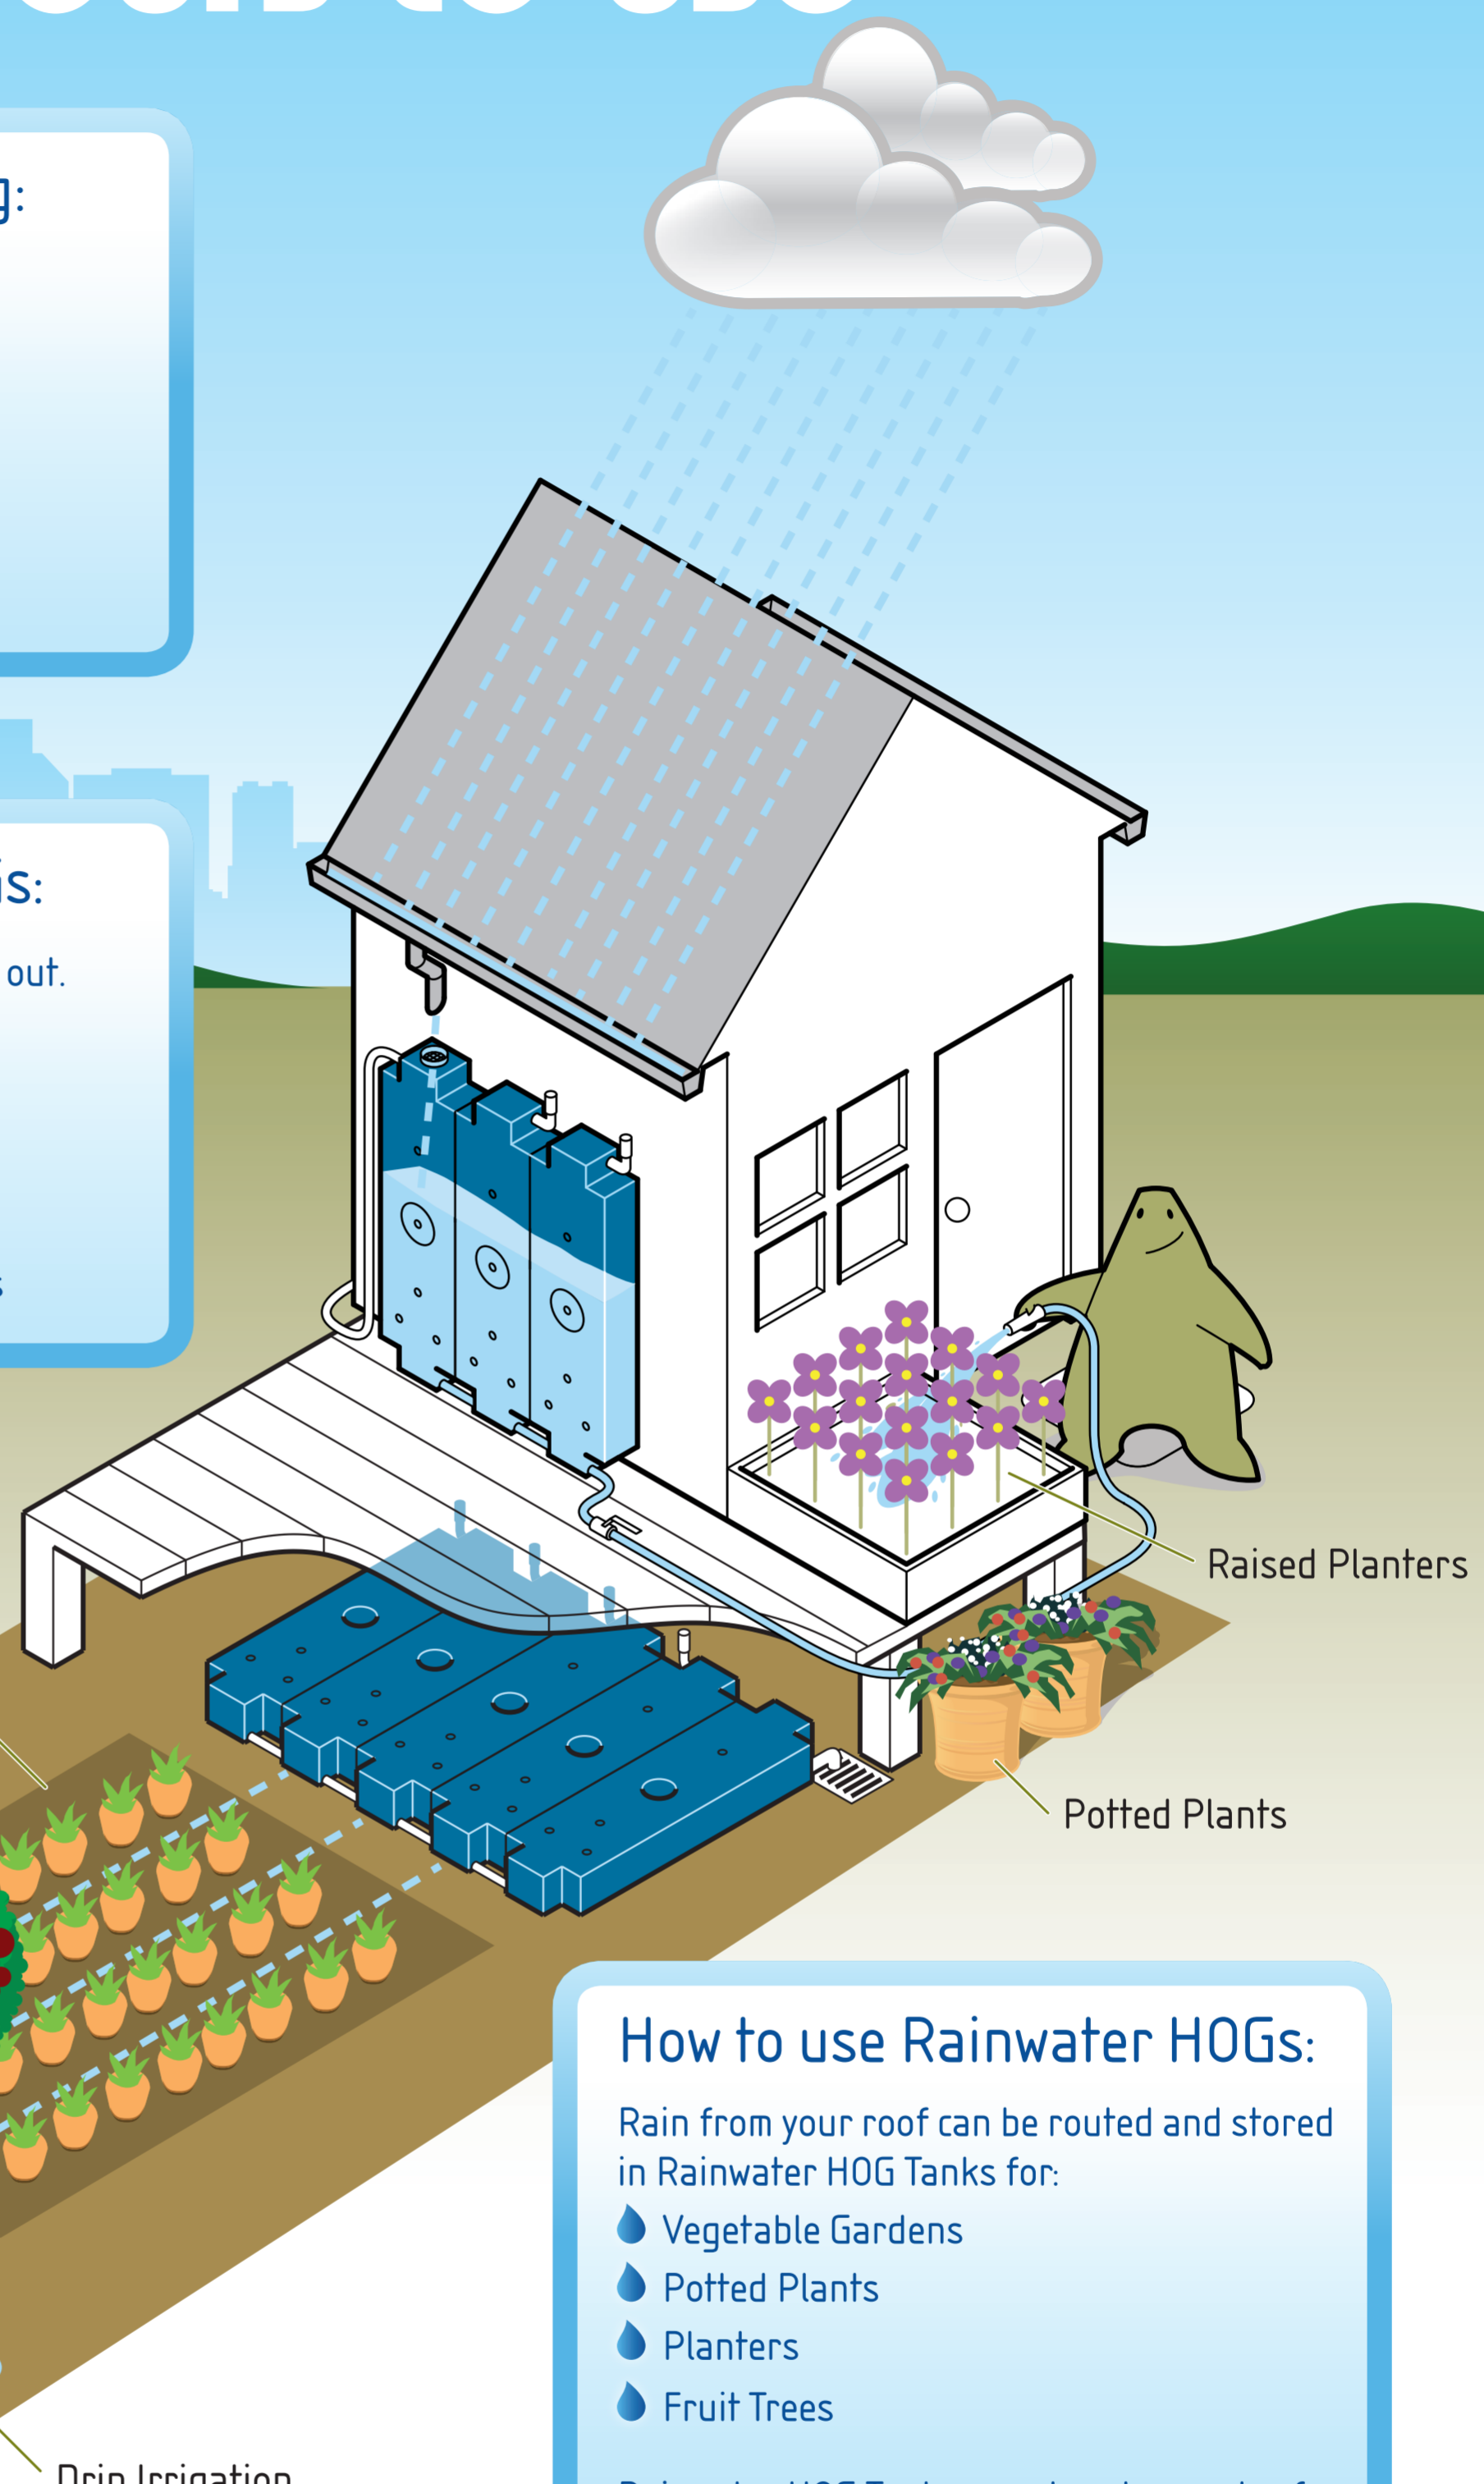

### Benefits of Rainwater Harvesting:

- Is environmentally friendly
- Is better for plants
- Prevents soil erosion by reducing rainfall runoff
- Increases self-sufficiency
- Conserves energy from potable water processes
- Fosters a greater appreciation of nature

### Other Benefits of Rainwater HOGs:

Can fit many architectural applications, indoors and out.

- Used under decks
- Used as screens
- Use them on walls
- Fits in garages and storage cabinets
- Fits on narrow side yards and under house eaves

### How to use Rainwater HOGs:

Rain from your roof can be routed and stored in Rainwater HOG Tanks for:

- Vegetable Gardens
- Potted Plants
- Planters
- Fruit Trees

Rainwater HOG Tanks can also store water for:

- Emergency Potable Water
- Flushing Toilets
- Drip Irrigation Systems
- Grey Water Systems (reusing bath, laundry & sink water)
- Decorative Landscape Fountains
